# WORD SCRAMBLE PUZZLE

## Test Your Phishing Smarts

**Instructions:** First unscramble the words in the 'Scrambled Word' column. Then, write the unscrambled words in the 'Unscrambled Word' column. Next, match each unscrambled word to its correct definition. An example has been matched for you.

| Scrambled Word | Unscrambled Word | Definition |
|---|---|---|
| IELMA DRESSAD | EMAIL ADDRESS | A connection or hyperlink that directs you from one place to another on the internet. |
| YPOTS | | A pressing need or importance that demands immediate attention or action. |
| GERNCUY | | A copy of files or data made to allow restoration if the originals are lost or compromised. |
| INLK | | Unintentional errors made when typing text, often revealed as spelling mistakes. |
| MDAION | | A unique identifier for an electronic mailbox used to send and receive messages over the internet |
| NCSA | | The part of a web address indicating the registered owner's site, found just before the top-level suffix (e.g. '.com') |
| KCABUP | | The process of examining a device or file for malware or suspicious content. |
